The following are instructions on how to access and update your contact information in the community database.

Access our community website – www.Unitedemmaus.org

Scroll down and click on “sign in”
If you have not previously registered to receive permission to access the database, click on “register” to receive this permission to access the database.
Complete and submit the information on the screen. The Database manager will respond when your registration is complete and will tell you the password. Your User ID should be your email address. The Database manager will confirm this login information.

When you receive the email from the database manager, repeat the instructions to get to the sign in page again and use the User ID and password given by the manager.
Click on “you”. Then “all about you.”
Click on “information”, then “name/contact”
Complete the information requested then click “update information”

Your contact information should now be correct in the database.
